PERSONAL PORTFOLIO PROJECTS

CAR PARK BOOKING APP	
<p>The car park booking app solves the misery of finding a parking spot on the OAU campus during workdays for car owners. It allows users to spot free parking spots in advance. The app includes a graphical representation of parking spots in different parking lots in OAU and real-time information on the availability of spots.</p> <ul style="list-style-type: none">Technologies Used: Figma (Design) .	
THRIVE APP (CASE STUDY)	
<p>Thrive is an ecommerce app where small business owners will be able to solve each other's challenges or problems. The biggest advantage is that each business tends to gain profit, increase their recognition, expand their business, increase their high approval rate and also helps them get resources they need for their business.</p> <ul style="list-style-type: none">Technologies Used: Figma (Design) & Whimsical(User flow).	
YUMME APP	
<p>Yumme is an ecommerce app that allows users to choose different meals and add them to their cart which also gets delivered to them.</p> <ul style="list-style-type: none">Technologies Used: Figma (Design) & Whimsical(User flow).
